## ANNEXURE

### G.O.Rt.No.129 , Agriculture & Cooperation (Mktg.II) Dept. dt.09.03.2017.

The following observations made by the Information Technology, Electronics & Communications Department development of software for the use of Agricultural Marketing computerizations:-

- i. User Registration through Aadhar verification can be made available through Bio-Metric or OTP verification (using user Registered Mobile No. at the time of Aadhaar Enrolment).
- ii. User Registration services to be made available through Web(i.e., Online), Mobile & Mee Seva Kiosks for Traders, Commission Agents, Farmers & Agricultural Market Centre Officers.
- iii. Master Data related to Market yard details should be made accessible online- in read / view only made without requiring any registration.
- iv. During user Registration Market yard details, should be auto filled upon entering required AMC Code.
- v. Features for browsing different categories of users such as traders, Commission agents and farmers to be made available for authorized users.
- vi. All changes to User Registration details after approval, should be logged through audit trail.
- vii. Master Data pertaining to Market yard such as commodities traded, Commissions Fixed, etc., to be maintained through online system by authorized officials.
- viii. Configurable MIS reports using parameters such as Market yard code, commodities code, from & to dates should be available for authorized Market yard & department officials.
- ix. All changes to Master data to be done by using Digital Signature of the Officer making the change. For this e-sign facility can be used as a cost effective option.
- x. MIS reports can include Exception Reports such as User Registrations, Master Data Changes, Payments to Traders, Commission Agents or Farmers etc., pending beyond agreed no. of days.
- xi. All payments to be made through online payment gateways- multiple gateway options can be made available.
- xii. Payments to Farmers can be made through online payment gateways to their respective Aadhaar linked Bank Accounts.
- xiii. For exercise / sales tax or GST payments integration with Excise / Commercial Tax Departments systems to be implemented.
- xiv. Proposal to include total cost of Ownership of the solution for period of 3 years post- implementation as per the following components.
  - Operational Expenditure – Which included post implementation support, Help desk Support, Training etc.
  - Network costs to be incurred by the Department
  - Infrastructure sizing which will determine the cost of HW.

Contd....3

- xv. It is recommended that the infrastructure to be sized for following parameters.
- System Availability based on Market yard operational timings.
  - System Scalability based on the Average as well as Maximum no. of users expected to use the system.
  - System Response Time – not exceeding 3 seconds (for indicative purposes only, final numbers to be decided based on department requirements).
- xvi. It is recommended that infrastructure be hosted in SDC for ensuring better security.
